

To Customers and Users utilizing Murphy AT Series Tachometers:

Murphy is pleased to announce the transition to our new and improved AT Series tachometer. This tachometer series is a drop in replacement to our previous tachometers. However, there are a few features we would like to cover which differ from the previous version for your awareness.

The new features which differ are as follows:

- Improved quality.
- 3000RPM dials transitioning to 4000RPM dials.
- Electrical studs are in a new location on the rear of the tachometer.
- New metal mounting clamp.
- New Calibration Method.
- 12 & 24VDC versions are now included into one model number.
